GET INTO THE SPIRIT OF ADVENTURE IN A QUINTREX SEA SPIRIT

Whether you like fishing, family cruising, camping or skiing a Quintrex Sea Spirit cabin boat will work for you.

Built by Australia's favourite boat builders, you can be sure the Quintrex Sea Spirit is a boat you can trust.

The entire Sea Spirit range now comes with 3mm topsides and 4mm bottomsides as standard for a durable long lasting boat.

The Sea Spirits can handle a variety of conditions due to the renowned Quintrex Blade Hull which cuts through water faster and easier than ever before.

Available as 510, 530 and 570 and with so many features you can choose a Sea Spirit to fit your exact requirements.

The large cabin bunks are perfect for those longer trips as they offer storage and shelter and are the perfect spot for the kids to relax on the way home.

Lewis Marine Dealer Principal Hughie Lewis said these boats come complete with all the fundamentals for a day out on the water while offering the versatility to please the entire family.

'For fishos, the aluminium side pockets and rod holders hold all your fishing gear while the large side decks are comfortable to sit on and lean against when reeling in your catch.'

'For the laid back boaties, the rear lounge is perfect for relaxing and taking in the sun but it can also be folded up against the transom to create extra deck space while fishing.'

'If you're after adventure, option up the Sea Spirit to include ski hooks, ski pole and hydraulic steering for a day of fun out on the water,' Hughie said.
