Sydney's Newest Marine Dealership Open For Business

Recreational boaters in Sydney are now better supported than ever with the opening of a completely new marine dealership, Marina Bayside. Located on the south side of Sydney at Taren Point, Marina Bayside is a quality dealership which has exclusive access to some of Australia's most iconic boating brands.

Marina Bayside is a full line, authorised Yamaha dealership which has an extensive range of Yamaha outboard engines in stock. In addition, customers have access to Yamaha Wave Runner personal watercraft, Yamaha parts, factory authorised service, Yamaha Motor Finance and Yamaha Marine Insurance.

Nationally recognised boat brands in Haines Hunter fibreglass boats, Sea Jay and Blue Fin aluminium rigs are also in stock and available for customers to inspect and purchase. Cayman inflatables and RIBs are stocked ready for immediate delivery.

Experienced marine industry identity Alex Panagakis has been appointed as the dealership General Manager and heads up a team of seven full time employees at Marina Bayside.

“Marina Bayside is a quality marine dealership which has been established to offer boaters the very best hull brands all powered by Yamaha outboards,” Alex Panagakis said.

“We have an absolute commitment to the brands that we stock and sell. And of course there is no better outboard engine than the Yamaha range.”

The new Marina Bayside dealership represents the first stage of a three year, multi-million dollar program to fully transform and develop the old Lewis Anchorage waterfront site on the shores of Botany Bay. The 10,000 sq m site also encompasses a 70 tonne travel lift with hardstand for boat maintenance. When the development is completed, Marina Bayside will be transformed into a modern and prestigious marina complex with a 200 boat dry stack and floating berth system, café, large boat service workshops and hardstand facilities with everything else expected of a leading marina complex.

“When the opportunity presented to secure the Yamaha franchise for the south side of Sydney, the Marina Bayside owners accelerated plans to develop the marine dealership aspect of the Marina Bayside project,” Alex Panagakis said.

“Today, boat owners are the big beneficiaries. Marina Bayside dealership is open for business and fully operational. We are fully stocked with Haines Hunter boats, Sea Jay boats and Blue Fin boats with more ordered and on the way.”

“We are carrying a big range of Yamaha Wave Runners ready for immediate delivery. We have Yamaha factory trained technicians in the workshop, full range of Yamaha outboards, portable Yamaha outboards pre-delivered and ready for cash and carry customers plus an extensive range of Yamaha oil, filters, lubricants and water sports accessories.”

Marina Bayside is the only authorised Yamaha dealer on the south side of Sydney.

Marina Bayside is privately owned by a Sydney based family. Family members are active boaters and share the passion for recreational boating and fishing.
