

Brisbane Marine Grows With Streaker

The South East Queensland home of Streaker fibreglass boats, Brisbane Marine, recently completed a dealership expansion program which will make the whole boat buying process easier and more comfortable for customers.

Brisbane Marine has extended their showroom allowing the interior to be completely reconfigured with an open layout and new carpeted floor, fresh white walls and ceiling and ample natural light. The entire showroom is air-conditioned.

Customers visiting Brisbane Marine can park right at the front door in designated customer parking bays. Reflecting the importance of Streaker Boats at Brisbane Marine, two sparkling new units, the Streaker Navigator 6100 and Navigator 5700 take pride of place on the display lot.

Off the showroom is an extended chandlery and accessories division with parts counter. Reflecting the high number of re-powers performed by Brisbane Marine, there is an exceptionally large display of Mercury outboard engines on display stands. The portable Mercury models are all pre-delivered and ready for cash and carry customers.

“We are very impressed and supportive of the effort to which Troy Wood and his team have applied to their growing dealership,” said Peter Benston, Streaker Boats Dealer Manager.

“The Streaker brand is relatively new to the Brisbane market and we have a very loyal dealer in Brisbane Marine. This is a fresh young dealership which is unconditionally customer focussed and committed to both the Streaker range and the Mercury brand.”

“As Brisbane Marine grows and evolves further we will be alongside with Streaker boats supporting the dealership and their customers every step of the way.”

The principal of Brisbane Marine, David Trask together with Business Partner and Manager Troy Wood, are ambitious about their future place in the Brisbane marine industry.

“We see ourselves growing steadily to eventually become the biggest and most professional marine dealership in Queensland,” David Trask said.

“Securing the rights to represent Streaker Boats is an important component in our growth. Streaker has a huge future and we want to be a part of their growth and expansion in the Brisbane market.”

Streaker Boats Australia is a long established Australian boat manufacturing business, based in Queensland. Established in 1973, Streaker Boats is a quality fibreglass boat manufacturer. The product range includes stylish bow riders, offshore fishing models and open runabouts. Streaker Boats are distributed exclusively through a network of Authorised Dealers throughout Australia.
